OWNER AFFIDAVIT and permission for municipal, county, and state officials to enter the property for inspections:
I agree the statements made above are true, if found not to be true this application and any approval will be void. Further, I agree to comply with the conditions and regulations provided with this parent parcel division. Further, I agree to give permission for officials of the municipality, county and the State of Michigan to enter the property where this parcel division is proposed for purposes of inspection to verify that the information on the application is correct.

I understand this is only a parcel division which conveys only certain rights under the applicable local land division ordinance, the local zoning ordinance, and the State Land Division Act (formerly the Subdivision Control Act, P.A. 288 of 1967, as amended (particularly by P.A. 591 of 1966), MCL 560.101 et. Seq.), and does not include any representation or conveyance of rights in any other statute, building code, zoning ordinance, deed restriction, or other property rights.

I understand per MCL 560.267- Sec. 267 that any sale of lands subdivided or otherwise partitioned or split in violation of this act is voidable at the option of the purchaser, and shall subject the seller to the forfeiture of all consideration received or pledged therefore, together with any damages sustained by the purchaser, recoverable in an action at law.

I also understand that if the land division is approved, it will be required to file one deed per new parcel legal description (including the remaining original parcel) within 90 days of the land division approval and that failure to timely file required deed(s) will result in the land division application approval being voided and will require a new land division application, and fees.

Finally, even if this division is approved, I understand zoning, local ordinances and State Acts change from time to time, and if changed, the divisions made here must comply with the new requirements (apply for division approval again) unless deeds, land contracts, leases, surveys representing approved divisions are recorded with the Register of Deeds or the division is built upon before the changes to laws are made.
